

Mariana Pachón Puentes • mariana0pachon@gmail.com • Software Engineer • Creative Technologist

Experience

Frontend Engineer — TaxGuardian (Freelance) — Nov 2025 – Mar 2026 ~ Remote, USA

- Built and maintained a tax services portal with both customer-facing and admin interfaces (**React**, **TypeScript**, **Vite**).
- Developed admin tools for customer management: SSN/EIN input handling, affiliate management, user editing, and account creation with promo code validation.
- Delivered responsive UI across mobile navigation, admin tables, and adaptive column layouts.

Fullstack Engineer — Healthcasts AI (Freelance) — Oct 2024 – Apr 2025 ~ Remote, USA

- Built a case view page to display medical cases, related replies, and AI-generated summaries of recommended medications and consult responses.
- Delivered full-stack features with **Python** Lambda functions (backend) and **Svelte** (frontend).

Fullstack Engineer — Travoya.ai (Freelance) — June 2024 - Sept 2024 ~ Remote, USA

- Designed and implemented the initial backend of an AI-powered travel platform.
- Developed **frame-by-frame image processing in Python** to generate recommendations from YouTube, Instagram, and TikTok links.
- Built an email workflow with webhooks and OpenAI API to categorize bookings, restaurants, hotels.

Fullstack Engineer — MojoTech (Software Development Agency) — 2020 – 2023 ~ Boulder, CO, USA

- Developed frontend (**React**) and backend (**Rails**) of a referral feature with automated notifications.
- Led backend implementation of in-app chat, unifying fragmented communication.
- Added job image upload for consumers, reducing cancellations and increasing completion rates.
- Optimized provider onboarding, cutting costs by \$4.8M and boosting retention by 7%.

JavaScript Instructor — Codeworks (Bootcamp) — Nov 2023 - Jan 2024 ~ Barcelona, Spain

- Mentored students on projects using React, Next.js, PostgreSQL, Express, and Git.
- Taught through whiteboarding, pair programming, and code review.

Projects & Exhibitions

Flora, Electronic Garden — Interactive Installation

- Award-winning interactive garden combining electronics, code, and music.
- Led hardware/software design in a 4-person team.
- **Explorer Award** at *A MAZE Festival* (2025); exhibited at *BCN Games Fest* (2025).

Wear the Sound — Interactive Installation

- Sound-based immersive environment exploring embodied interaction.
- Exhibited at *Sónar Festival* in the *Mies Van der Rohe* pavillion (2025) and *BCN Games Fest* (2025).

Education

M.A. in Digital Arts & Creative Coding - BAU, College of Arts & Design — Barcelona, Spain (2023–2024)

B.S. in Computer Science (High Distinction, GPA 3.75/4.0) - Worcester Polytechnic Institute - USA (2016–2019)

Skills

Programming: Ruby on Rails, Python, JavaScript, React, Svelte, TypeScript, SQL, Elixir, Git
Creative Tech: Arduino, electronics, Processing, Ableton Live, 3D printing, laser cutting, CNC
Languages: Spanish (Native), English (Fluent), French (Fluent)
